YOUR BUSINESS ASSURED

18 years of expertise powers the intelligence in our industry-leading GRC platform.

Keep your business secure and compliant with SureCloud. Everything you need today and tomorrow, in our integrated GRC platform, that everyone can use.

Simplify Your Compliance Audits with Automated Evidence Collection.

Managing Compliance Evidence within an organization can be a complex and resource-intensive process.

SureCloud's Automated Evidence Collection streamlines the collection, storage, and management of compliance documentation and evidence needed for audits and continuous monitoring to ensure you are always audit-ready.

Whether you're working toward certification such as ISO 27001 and SOC 2, preparing for an upcoming audit, or just trying to keep documentation up to date and accessible, SureCloud ensures you have your evidence on hand at all times and delivers a measurable return on investment to your compliance program.

Key Features

Automated Evidence Collection.

- Connect the SureCloud platform to your existing document storage solutions such as OneDrive, SharePoint, Box, Dropbox and Google Drive.

- Automate the collection of the documents at your chosen frequency and maintain a robust library of Compliance Evidence.

- Report on your compliance status in real-time to ensure you are always audit ready.

- Ensure documentation is audit-ready with auditor-friendly evidence reports with a single click.

- Ensure complete traceability with a full audit trail for all evidence.

> "Leveraging Automated Evidence Collection has enabled us to reduce our audit preparation time for ISO 27001 from weeks to days. We have seen a 70% reduction in time spent on sourcing, reviewing and following up on Compliance evidence. This has enabled us to provide our key stakeholders with assurance that we are doing the right thing and allowed our Compliance team to focus on more strategic activities."

Benefits

1. Save Time and Reduce Manual Work

- Automate repetitive and manual document collection tasks.
- Free your compliance and security teams to focus on higher-value activities.

2. Improve Accuracy and Reduce Risk

- Ensure all document evidence is accurate, up-to-date, and complete.
- Minimize the risk of non-compliance due to missing or outdated information.
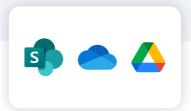

3. Stay Audit-Ready Year-Round

- Move from reactive audits to a proactive continuous compliance model.
- Be prepared for surprise audits or external security assessments at any time.

How It Works
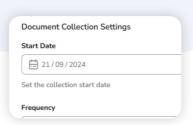

Select Integration

Choose the integration which best suits your needs, with SureCloud offering syncs to well-known commonly used document storage providers.
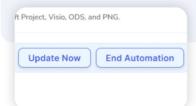

Set Up Collection Details

Set up your automation in minutes with our intuitive interface including the date and frequency of evidence collection.
