

DATASHEET

GDPR Management

SureCloud's GDPR Management solution provides out-of-the-box templates, workflow and content to support your General Protections Data Regulation (GDPR) program.

The Challenge

The General Data Protection Regulation (GDPR) requires that organizations securely and lawfully store and process personal data of North American residents. Many organizations are seeking to comply, but how does one start and manage the program on an ongoing basis? How do you ensure you have the correct controls for conducting Data Protection Impact Assessments (DPIAs), recording processing activities (Article 30), responding to Subject Access Requests (SARs), tracking data transfers internal and external to your organization, as well as demonstrating their effectiveness?

The Solution

SureCloud's GDPR Management software solution provides business-as-usual processes to support your GDPR compliance program. The solution helps you facilitate the creation, distribution, and management of DPIAs, collect and manage SARs, document your Article 30 records of processing activities, and track the transfers of data within your organization. SureCloud's GDPR Management solution works seamlessly with SureCloud's wider data privacy management solution set to give you a truly integrated privacy management solution.

“The SureCloud GDPR Suite isn't just a compliance tool; it's a comprehensive management tool. We now have a continuous, real-time status of where we are and what we need to be doing in terms of data processing, documentation and risk management. It would have simply been impossible to achieve this manually.”

Ian Garratt,
Data Protection Officer, Everton Football Club

Key Benefits

Simple solutions delivering enterprise outcomes

SureCloud is a provider of cloud-based, integrated risk management products, which reinvent the way you manage risk.

- Streamline your processes
- Works as your single source of truth
- Automate your activities
- Real time dashboarding and reporting
- Great user experience
- Integrate your Governance, Risk and Compliance journeys

“The SureCloud GDPR solution automatically notifies me of any DPIA requests, enabling me to have an ongoing awareness without having to log into the platform. Furthermore, all actions and requests are fully documented, enabling me to assign responsibility to various information asset owners within the business.”

Kieran O’Shea,
Head of Compliance and Data Protection Officer, U Account

4%

of global annual turnover or 20 million euros is the maximum fine for breach of GDPR

95,180

Number of complaints that have been made to EU national data protection authorities (DPAs)

60%

of organizations said GDPR has significantly changed their organizations’ workflows
